

USER GUIDE

1. Login into the backend and go to System >> Cache Management >> Enable All Cache Types
2. Upload all the extension files from “step1” folder to the root folder of your Magento installation:

3. Go to System >> Cache Management page at your Magento backend, and click the “Flush Cache Storage” button. After this action, the extension is installed.

4. Please log out from the backend and log in again for Magento to refresh permissions.

NOTE: If you are using theme other than rwd, follow this extra steps

1) Put these in app/design/frontend/base/default/template/nbanners/index.phtml file. Please do not forget to edit your package name and theme name in this code.

```
<script type="text/javascript" src="<?php echo Mage::getBaseUrl(Mage_Core_Model_Store::URL_TYPE_SKIN); ?>frontend/your_package_name/your_theme_name/js/lib/jquery.cycle2.min.js"></script>
```

```
<script type="text/javascript" src="<?php echo Mage::getBaseUrl(Mage_Core_Model_Store::URL_TYPE_SKIN); ?>frontend/your_package_name/your_theme_name/js/lib/jquery.cycle2.swipe.min.js"></script>
```

```
<script type="text/javascript" src="<?php echo Mage::getBaseUrl(Mage_Core_Model_Store::URL_TYPE_SKIN); ?>frontend/your_package_name/your_theme_name/js/slideshow.js"></script>
```

2) Now in page.xml file put:

```
<action method="addJs"><script>lib/jquery/jquery-1.10.2.min.js</script></action>
<action method="addJs"><script>lib/jquery/noconflict.js</script></action>
```

SLIDER SETTINGS

You can set:

- Pagination
- Effect
- Speed

	ID	Group	Name	Alt text	Caption Position	Status
Any	From:					
	To :					
<input type="checkbox"/>	3	home_group	Banner3	banner3	Position1	Enable
<input type="checkbox"/>	2	home_group	Banner2	banner2	Position1	Enable
<input type="checkbox"/>	1	home_group	Banner1	banner1	Position1	Enable

FILL INFORMATION OF THE BANNER

1

Write the name of banner group. Right now I am creating slider only for home page, so I named it home_group. You can create different slider with the different group name for each page.

2

Name of the banner

3

Alternate text

4

Write the banner caption

5

Chose the banner image

6

Set banner enable/disable

CODE TO BE USED AFTER SLIDER CREATION:

The screenshot displays the Magento Admin Panel interface. At the top, the 'Magento Admin Panel' logo is on the left, and a 'Global Record Search' bar is on the right. Below the logo, a navigation menu includes 'Dashboard', 'Sales', 'Catalog', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', 'System', and 'Nbanners'. The 'CMS' menu is highlighted, and its dropdown menu is open, showing 'Pages', 'Static Blocks', 'Widgets', and 'Polls'. The 'Pages' option is selected, leading to the 'Edit Page 'Home page'' screen. On the left side of the page, there is a 'Page Information' sidebar with tabs for 'Page Information', 'Content', 'Design', and 'Meta Data'. The main content area is titled 'Content' and features a 'Content Heading' field. Below this is a 'Show / Hide Editor' button. The editor toolbar includes various icons for text formatting (bold, italic, underline, ABC), alignment, list creation, indentation, link, unlink, anchor, image, video, audio, HTML, and source code. The main text area contains the code: `{{block type="nbanners/index" group="home_group" template="nbanners/index.phtml"}}`. A blue callout box points to this code with the text: 'Call static block here. Right i have put static block in home page by going CMS -> Pages -> Home page. You can find this static block in our readme.txt file included with this extension.'
